

KARINA TAYLOR

Technology Project Coordination | Systems Analysis | Human-Centered AI

Yakima, WA | [509-303-4252](tel:509-303-4252) | karinartaylor@gmail.com | karinartaylor.github.io
linkedin.com/in/karinartaylor | github.com/karinartaylor

PROFESSIONAL SUMMARY

Systems-oriented technology professional completing a B.S. in Information Technology & Administrative Management, with experience in higher-education support, project coordination, technical troubleshooting, information design, and operations. Led a six-person remote technology project using Microsoft 365 and Microsoft Project, and developed a human-centered AI governance proposal for higher-education information systems. Interested in technical project coordination, systems/business analysis, technology implementation, PMO support, process improvement, higher-education technology, and responsible AI adoption.

EDUCATION

Bachelor of Science, Information Technology & Administrative Management

Central Washington University, Ellensburg, WA | Expected Spring 2028

Current focus: Project Management and Artificial Intelligence

Relevant coursework: Project Management Lifecycle; AI Tools for IT Managers; Foundations of Digital Environments; IT Management Career Planning

SELECTED PROJECT EXPERIENCE

Project Manager - Central Involvement Network

Central Washington University | Remote | 2026

- Led planning and project controls for a six-person remote team developing a digital student involvement prototype; created the WBS, linked schedule, milestones, RACI, risk/change controls, resource plan, quality measures, and progress/EVM reporting.
- Built and maintained the Microsoft Teams/SharePoint workspace and coordinated work across Planner, Loop, Word, Excel, PowerPoint, Microsoft Project, an interactive Figma prototype, and a supplemental coded demo. Sponsor review confirmed project success criteria were met.

Institutional Visibility Without Institutional Authority

AI Tools for IT Managers | Central Washington University | 2026

- Designed a human-centered AI operating model for fragmented higher-education information using Audit -> Flag -> Draft -> Review -> Publish, with people retaining authority for policy, judgment, and publication.
- Scoped a one-quarter pilot using approved public information and existing licensed tools, with FERPA/privacy, accessibility, staffing constraints, source confidence, and measurable success criteria built into implementation.

TECHNICAL & PROJECT SKILLS

Project & Systems: Project coordination, WBS, scheduling, RACI, risk/change/quality controls, EVM fundamentals, process analysis, requirements clarification, documentation, stakeholder communication

Microsoft 365: Teams, SharePoint, Planner, Loop, Excel, PowerPoint, Word, Outlook, Microsoft Project

Web & Content: HTML/CSS, Git, GitHub, GitHub Pages, SharePoint pages, Canva, basic WordPress, Figma (limited), Adobe Premiere Pro, Clipchamp

Technical & AI: Python fundamentals, OpenAI API coursework, AI workflow evaluation, Zoom, vMix, A/V setup, technical troubleshooting

PROFESSIONAL EXPERIENCE

Office Assistant - Multimodal Learning

Central Washington University | Ellensburg, WA | Oct 2026 - Present

- Provide office and operational support in a higher-education learning-technology environment, supporting communication, information, and technology-enabled workflows.
- Apply Microsoft 365, documentation, troubleshooting, and user-support skills while learning institutional processes from both the staff and student perspectives.

Student Graphic Designer - Community Relations

Yakima Valley College | Yakima, WA | Jan 2025 - Jun 2025

- Created digital outreach and communication materials supporting student engagement and community-relations objectives within institutional requirements.
- Interpreted requests, developed Canva deliverables, coordinated feedback through Microsoft Teams, and maintained organized digital communication and media records.

Front Desk Receptionist / Night Audit

Ledgestone Hotel | Yakima, WA | Jul 2023 - Dec 2024

- Managed reservation platforms, payment and authorization systems, key access, guest communication, nightly reporting, and Excel-based operational records during independent late shifts.
- Resolved guest and technology issues in real time while balancing service, safety, financial reconciliation, and accurate shift handoffs.

Remote Legal Videographer

Kinoframes, LLC | Remote & On-Site, WA | Jan 2022 - Jan 2023

- Hosted and supported remote legal proceedings using Zoom, Microsoft Teams, and vMix; configured laptops, webcams, audio/video connections, and digital exhibits for attorneys, witnesses, and court reporters.
- Troubleshoot audio, video, connection, participant, and presentation issues in real time while maintaining confidentiality, professional neutrality, accurate recordings, and reliable file organization.
- Used Adobe PDF tools for exhibits and Adobe Premiere Pro for approved post-production editing of legal video.

Customer Service / Technical Support

Amazon | Kennewick, WA | Oct 2018 - Jul 2019

- Supported customers using Fire tablets, Echo and Alexa devices, and compatible products across phone and digital channels, guiding users through setup and troubleshooting.
- Clarified technical problems, de-escalated high-stress interactions, communicated solutions in plain language, and escalated issues when appropriate.

ADDITIONAL EXPERIENCE

Orthodontic Assistant, Apple Valley Dental & Braces, Yakima, WA (Aug 2019 - Apr 2021) | Receptionist & Optometric Assistant, Washington Vision Therapy Center, Yakima, WA (Dec 2015 - Jul 2017) | Restaurant Operations, McDonald's, Washington (Jul 2025 - Sep 2026)
